Welcome to our farm stand! All our veggie plants are grown from seed using organic methods and are hardened off and ready to plant in your garden. We sell them in environmentally friendly peat pots which can be directly planted to reduce transplant shock. VERY limited quantities available!

HEIRLOOM TOMATOES

\$4

Brandywine Red

One of the most popular and best-tasting heirlooms.

Striped German

A beautiful large, marbled slicing variety.

Dr Wyche's Yellow

Very mild, lower acid yellow slicer. Disease resistant.

Cherokee Purple

A medium-sized, maroon beefsteak heirloom.

Celebrity

Hybrid, super productive, very disease resistant.

Amish Paste

High yield, standard paste tomato perfect for canning.

Tomatillo

The only way to make salsa verde!

CHERRY TOMATOES

SunGold

Cute grape-sized tomatoes bursting with tang.

Supersweet Cherry

One of the first to fruit and the last to stop.

Black Cherry

Delicious and prolific mid-size cherry

Indigo Cherry

Delicious and prolific mid-size cherry

PEPPERS

\$4

Lunchbox Sweet

Mixed colors, beautiful mini sweet peppers bursting with flavor.

Early Jalapeno

The best variety for cooler climates.

Hot Cherry

Mild hotness, perfect for pickling or adding to salsa.

Habanero

Extra early and prolific red habanero (Velociraptor)

Hungarian Wax

Mild "hot" pepper ripening to deep red with increasing spiciness. Great for pickling.

Red Knight

Big sweet green bell pepper that ripens to red.

GREENS

\$3

Rainbow Chard

Brilliant stems and lush foliage.

Red Leaf Lettuce

Productive ruffled red leafed. Cut and come again.

Romaine Lettuce

Green Forest, early tall and dark green.

Collards

Champion variety, prolific from spring through fall.

Tuscan Kale

Rich dark green leaves can be harvested all season long.

Curly Kale

Much softer and sweeter than what you find in the grocery store.

Iceberg Lettuce

Easy to grow. Mild & sweet!

Butter Leaf Lettuce

Elegant, supple leaves. Can be cut and come again.

GREENS

\$3

Arugula

Harvest young for a spicy kick in salads.

Escarole

Crisp, clean flavor. The only lettuce you can cook!

Spinach

Thick, sweet leaves with juicy texture.

Mustard Greens

Spicy hot greens can be harvested as baby leaves or full size.

VEGGIES

\$3

Broccoli

Good variety for northern climates, produces best in cool weather.

Purple Chard

Chard is a relative of the beet and the earthiness comes through with this variety.

Provider Bean

Prolific, easy to grow uniform bush green beans.

Mokum Carrot

Uniform sweet early-season carrot. Grows best in pots or soft soil.

Sugarsnap Pea

Extra sweet with edible pods. Kids love them.

Snow Pea

Sweet, tender flat pods.

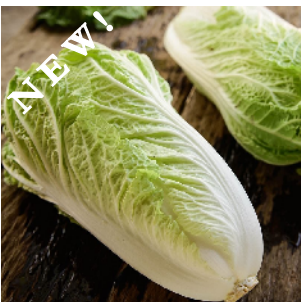

Radish

Perfect red roots with big juicy and spicy flavor.

Sweet Corn

Rosie F1 beautiful, uniform ears and very sweet.

Chinese Cabbage

Mild, crisp and versatile.

Bok Choy

Harvest young for salads, or later for a delightful crunch.

Fennel

Use the fronds as an herb, or try it on the grill!

Brussels Sprouts

Top them for large, uniform sprouts. Delicious roasted!

CUCUMBERS

\$3

DMR Slicer

A downy-mildew resistant, prolific variety for slicing.

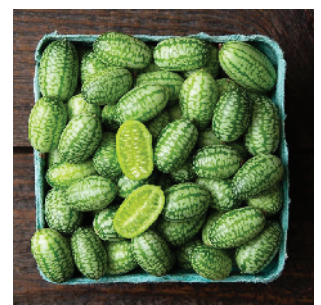

Boston Pickling

Stout fruits perfect for pickling.

Patio Cucumber

Compact container cucumber, perfect for snacking.

Cucamelon

Mexican sour gherkin. Great for kids and fun to eat.

SQUASH

\$3

Green Machine

Bush zucchini that continuously cranks out perfect fruit.

Golden Zucchini

Bush variety with thin, beautiful yellow skin.

Patty Pan

Harvest young for tenderness. Perfect for calabacitas.

Kabocha

Super sweet and creamy winter squash

Butterbaby

Smaller, sweeter butternut variety.

Honey Bun Acorn

Semi-bush, small fruits, very sweet.

Bon Bon

Tasty, high yielding, and stores well

Howland Pumpkin

Big, dark orange variety perfect for carving.

Sunlight

Yellow, medium sized pumpkin

Shiver

White, smooth skinned pumpkin

Black Bear

Rare (almost) black variety

HERBS

\$3

Sweet Basil

Classic aroma and flavor, mildew resistant.

Holy Basil

Also known as Tulsi, it is grown for its aromatic leaves used in teas and cooking.

Purple Basil

Same flavor as sweet basil but beautiful purple leaves.

Thai Basil

Traditionally used in Asian cooking, stronger anise flavor than Italian basil.

Italian Parsley

Flat-leaved, fresh tasting herb; may overwinter.

Cilantro

Coriander, essential to Latin, Asian and Indian dishes. Seeds can be dried, too.

Chamomile

Traditionally used in natural remedies and teas. Self-sows.

Dill

Easy to grow, zesty flavor. Beautiful yellow flowers.

Green Onion

Mild flavor, grows very quick; cut and come again.

Lemon Balm

Citrus-scented herb in the mint family.

FRUIT

\$3

Cantaloupe

Honey-sweet and early ripening

Strawberry

June-bearing Earliglow variety, highly productive even in first year of planting.

Ground Cherry

A member of the tomatillo family, these little gems taste just like pineapple

POTS

Our plants are potted in compostable 4-inch peat pots. They can be planted directly into the soil in the pot to reduce transplant shock. We sell individual plants during the month of May or until supplies last.

* The photos in this catalog are NOT my own. They are mostly from High Mowing Organic Seeds.

All of our seeds are organic and grown organically. We buy seeds from Johnny's Select in Maine and High Mowing Organic Seeds in Vermont. If you have a particular variety you want us to grow next year, please let us know!
